Meet the dynamic duo behind Green Leaf Grove: Hannah Nelson and my father, Mark Nelson. With over 6 years of combined expertise in urban farming, we've cultivated a passion for microgreens like no other. At Green Leaf Grove, we're dedicated to revolutionizing the way you experience greens.

Our innovative growing methods yield microgreens with shorter stems and fuller, more flavorful leaves. Every microgreen is harvested within less than 24 hours of the day of delivery, ensuring you receive nothing short of peak freshness and flavor. Join us in our mission to redefine the standard for greens, one delicious bite at a time.
